

Business Startup

Small Business have just as complex needs as larger businesses and yet often lack the IT budget or Staff to address those needs. **Business Startup** is a product that can help address those needs and allow for growth when the organisation expands. **Business Startup** is built around the successes of the other products in our range.

A New business, in either start up or expansion mode, has as its first priority the need to record their Financial and Other data. They need a small Financial system that works and will manage their recording requirements without change.

Business Startup is aimed at the Small Business that need to start with a small but stable system, that can be upgraded with minimum effort.

Who we are...

CSB is your Management partner

CSoft is a complete integrated business system, whether managing accounts, sales, production, job costing or customer contacts - all in one easy and ready to use system. CSoft is fully customisable, truly adaptable and simple to use, enabling you to access critical information quickly and easily. CSoft enables you to make smart business decisions, so that as your business needs change and grow, our system can adapt and grow to meet those demands.

Csoft is designed by accounting and business professionals for astute business owners. From the release of version 1 in 1998, we now have users in Australia, New Zealand, Hong Kong, Thailand, South Korea and South Africa. Our clients boast some of the regions most professional and innovative businesses in a diverse range of industries.

We have the flexibility to work with companies from one user, through to much larger organisations with multiple users in different locations. We will work with you to provide the ultimate in Accounting and Management Solutions ensuring your business objectives are achieved.

Our Competitors

Other commercial software providers only allow you to change settings to make the system fit your requirements. They will not be able to provide you with a truly customised solution or will only be able to offer an expensive solution after many months. We specifically tailor and customise our software to suit YOUR business.

Staying in Control

Keep on top of critical tasks with system generated alerts.

- ✓ In contact management, set reminders when you are next due to see a contact
- ✓ Have special reports produced for you
- ✓ Produce reports when you want them
- ✓ Add reports to your end of day or end of month list to be automatically generated

"Having CSoft

as your technology part-

ner will save you time

and money, letting you

get on with the job."

"When it matters most, will

your accounting software

system save you, or bury

you?"

Desktop

With today's challenging technology choices, you need to be able to have choices. CSoft offers the following options for the desktop.

Operating System	Stand-alone PC	Terminal Services
MS Windows	✓	✓
Java Web Forms	✓	✓

Server

CSoft runs on MS Windows Servers, delivering a complete application that can manage thousands of users. With all data stored on a central database, eliminating redundant data re-entry, all your departments can work collaboratively to increase customer satisfaction and key business efficiencies.
